Current BSc Course Reenrolment Check List

Level 2 2012

Your Responsibility

It is your responsibility to check that you are complying with all the course requirements. The Faculty will not be checking your enrolment unless requested and there are lots of tools to help you.

Resources

- AskUWA [http://ipoint.uwa.edu.au/](http://ipoint.uwa.edu.au/) if you have further questions

If you have questions or want to request an enrolment check then contact the Science Student Office, Central Agriculture Building (NB we have moved from the Physics building).

☐ Have I completed all my level 1 requirements?

Check you have completed the minimum Maths prerequisites

☐ Level 2 requirements?

Check you have included all the Core Requirements for your
- major(s) [http://www.science.uwa.edu.au/scb/core](http://www.science.uwa.edu.au/scb/core)
- or program [http://www.science.uwa.edu.au/scb/programs](http://www.science.uwa.edu.au/scb/programs)

Check you have included all the requirements for your second major at level 2.
Check you have met all the necessary prerequisites for your 2012 units

☐ Preparing for level 3

Check your unit choices meet the prerequisites for your intended level 3 units

☐ Anything else?

Add Electives at level 2 if you have space. The standard full time enrolment is 24 points each semester

☐ Re-enrol on Student Connect

Log into Student Connect and check your current details
Update your personal details including mobile phone number
Update your Major or Program details in Unit Sets in Student Connect to match your study intentions.

Re-enrol by adding your units
Current BSc Course Reenrolment Check List

**Level 3 2012**

**Your Responsibility**

It is your responsibility to check that you are complying with all the course requirements. The Faculty will not be checking your enrolment unless requested and there are lots of tools to help you.

If you are expecting to complete your degree in 2012 you can request a completion check with the Science Student Office. The Faculty will check that your enrolment will meet all the course requirements so that you can graduate in 2013. If not, they will notify you of any required changes.

**Resources**

If you have questions or want to request an enrolment check then contact the Science Student Office, Central Agriculture Building (NB we have moved from the Physics building).

- **Have I completed all my level 1 and 2 requirements?**
  Check you have completed the minimum Maths prerequisites

- If your enrolment changes in the future, for what ever reason, you will need to request an additional enrolment check.
Current BSc Course Reenrolment Check List

**Level 1/2 2012 (mid year start 2011)**

**Care Required!**

You need to be very careful when selecting your units so that you can actually complete your studies in the usual 3 years. To meet prerequisite requirements you may need to delay studying some of your level 1 units and instead enrol in the level 2 core units of your major/s.

**Your Responsibility**

It is your responsibility to check that you are complying with all the course requirements. The Faculty will not be checking your enrolment unless requested and there are lots of tools to help you.

**Resources**

- AskUWA [http://ipoint.uwa.edu.au/](http://ipoint.uwa.edu.au/) if you have further questions

If you have questions or want to request an enrolment check then contact the Science Student Office, Central Agriculture Building (we have moved from Physics).

- **Start with level 2 requirements.** Many semester 2 units require semester 1 prerequisites. [http://www.science.uwa.edu.au/scb/planning#year-by-year](http://www.science.uwa.edu.au/scb/planning#year-by-year)
  - Check you have included all the Core Requirements for your major(s) ([http://www.science.uwa.edu.au/scb/core](http://www.science.uwa.edu.au/scb/core))
  - Check you have included all the Core Requirements for your major(s) ([http://www.science.uwa.edu.au/scb/core](http://www.science.uwa.edu.au/scb/core))
  - or program ([http://www.science.uwa.edu.au/scb/programs](http://www.science.uwa.edu.au/scb/programs))
  - Check you have completed the minimum Maths prerequisites [http://www.science.uwa.edu.au/scb/planning#maths-prerequisite](http://www.science.uwa.edu.au/scb/planning#maths-prerequisite)
